Objective

I am looking to be employed in a challenging software development environment where I can make ample use of my computer science and mathematics skills.

Education

Rensselaer Polytec. Institute, Troy, NY   August 2005 - Present
Persuing B.S. Computer Science, with minors in Mathematics and French, GPA 3.1/4.0, expected May 2009

Related Experience

Undergraduate Research Experience   May 2008 - August 2008
Rensselaer Polytechnic Institute, Troy, NY
Assisted Professor Jeffrey C. Trinkle & Steven Berard with development of the daVinci Code physical simulator (http://www.robotics.cs.rpi.edu/dvc).

Software Development Intern   June 2007 - August 2007
Vermont Electric Power Company (VELCO), Rutland, VT
Assisted VELCO's Information Systems group with development of stand alone and Microsoft SharePoint composite software for dynamic tracking of network hosts and a Virtual Help Desk solution.

System Protection Intern   May 2006 - August 2006
Vermont Electric Power Company (VELCO), Rutland, VT
Assisted VELCO's System Protection group with software maintenance and development including preparation for installing software for automatic retrieval of information from Digital Fault Recorders and Relays.

Information Systems Intern   June 2005 - August 2005
Vermont Electric Power Company (VELCO), Rutland, VT
Assisted the VELCO IS department with network maintenance, PC preparation, operating systems & software installation and maintenance.

Other Experience

Mountain Ambassador   November 2004 - May 2008
Killington Ltd., Killington, Vermont
The Killington Ambassador Program is an on-slope volunteer program designed to improve the experience of guests by providing local knowledge, information, directions, safety tips, and just about any other help a guest might need.

Honors

Rensselaer Medalist

Activities

Snowboarding, Mountain Biking, Baseball, Reading
